True Crime Case Histories, Volume 3: 12 Disturbing True Crime Stories Jason Neal
12 True Crime Stories of Murder & Mayhem

As with the two prior volumes of True Crime Case Histories, I want to start with a quick word of warning. Most news articles and television true crime shows skim over the sticky details of truly gruesome crimes. In my books I don't gloss over the facts, regardless of how horrible they may be. I try to give my readers a clear and accurate description on just how demented the killers really were. I do my best not to leave anything out. The stories included in these books are not for the squeamish.

Volume 3 features: longer stories, photos, two bonus chapters and an online appendix with additional photos, videos, and documents.

A sampling of the stories include:

The Canal Killer - A violent psychopath cuts off the head, hands, and feet of his girlfriends and dumps them in the canals of London and Rotterdam.

The Head in the Bucket - A drug kingpin chops off the head of one of his dealers and carries it around in a Home Depot bucket.

Captain Cash - Another drug dealer butchers an entire family so he can take over a man's fruit shipping business and transform it into a drug shipping business.

The Coffee Killer - A young woman, jealous of her rich socialite friend, poisons her by lacing her coffee with cyanide in a public coffee shop.

The Arizona Torso Killer - A petite trophy-wife shoots her husband, freezes his body, hacks him up with a jigsaw and dumps his torso in a dumpster behind a grocery store.

The Oxford Murder - A young college student strangles his girlfriend and crams her body into an eight-inch crawlspace beneath the stairs.

Plus six more disturbing true crime stories.

The twelve true crime stories included in this collection are dark and creepy and will leave you with a new understanding of just how fragile the human mind can be.

If there's any common theme between these cases, it would be that many of them happened near places I've lived throughout my life.

Three stories took place in the London area. One of which happened just a five-minute walk from my home. Two other stories took place in Scottsdale, Arizona where I've lived the majority of my life. Another took place in Maui, Hawaii while I was living there. And finally, another took place in Oxford, UK very close to where I've been working over the past year.

The stories in this volume took place all over the world, and range from the 1940s to 2018.

Maybe my new favorite

This is my 3rd book from this author and I must admit I am hooked! I can't wait for more to come out. I love how he doesn't shy away from what the true crime is like. As crazy as it sounds to me it makes the book so much better. It also makes the imagine or crime easier to imagine. I know these types of books are not for everyone but if you are like me and love true crime books then look no further. I promise (as long as you have the stomach) you will be hooked as well. I must admit the more details and stuff the more interesting it makes it. I mean after all it's a true crime book so of course I want to know what the actual crime scene was like. Most authors try to tone it down or are not comfortable with writing about all gruesome details..... But I've finally found an author that writes it exactly how it is and also has no personal opinions in it. He tells it like it is!

I am so ready for another book of his to read

I occasionally enjoy reading true crime books, so when I saw a BookBub promotion for this book, I took a look at it. With ratings of 4.4 on Amazon and 3.92 on Goodreads, I figured it would be a good diversionary read.

Unfortunately, it wasn't nearly as good as the ratings and reviews led me to believe. The book is a collection of random stories about fairly grisly murders. There's no unifying theme (except, apparently, that many of the murders happened in places near where the author has lived). That in itself isn't a problem. Based on the author's description of the book, I didn't expect anything different. But the crime stories are, on average, just okay. I'd say only one or two are particularly memorable, with "God Chose Us" being the best, in my opinion. I think most of them could have been told better by a more accomplished writer.

I really have to take issue with the reviewers who praise the author's writing style. I found most of the writing to be flat and uninspired, and in many places, awkward or just inept. Please, take a basic writing course or hire a good copy editor. It's not that hard to write sentences with proper antecedents, tenses, prepositions, and relative pronouns (has the author ever considered using "who" instead of "that" when referring to a person?). The very sloppy writing frequently distracted me and detracted from my enjoyment of the book.

Contains graphic crime details

Volume 3 continues with more astonishing crime cases told in graphic detail for true crime aficionados who want to know the truth. We also like to hear at the story's end that justice has been meted out. Readers who shrink from the truth and ignore the evil that exists in the world should not pick up this book.

The more you know about evil, the more likely you are to recognize it. Teach your children about the dangers that threaten them. Don't send them to the battlefield that is today's world without weapons.

There are many lessons to be learned in this book. Crimes are committed for such paltry reasons. A young woman poisons her best friend, but why? Husbands kill wives and wives kill husbands, but why? Often the reasons given are only petty annoyances, and the victim had no awareness of it.

I'll be looking forward to Volume 4.

Contains photos.
